

NOV 24 2005

Appln. No. 10/782,115
Amendment dated November 24, 2005
Reply to Office Action mailed August 25, 2005

Amendments to the Specification:

Please replace the paragraph beginning on page 5, line 8, with the following rewritten paragraph (deleted text being struck through and added text being underlined):

In an embodiment, the locking member 26 has a convex surface ~~[[[30]]]~~ 36 for abutting a complimentary surface 32 of a selected indentation 24. Thus, the locking member 26 is slidable along the medial portion 18 as the handle member 20 is moved by application of lateral force in excess of a threshold frictional force between the locking member 26 and the selected indentation 24.
